SCOLTA AI SEARCH

The practical path to AI Search.

Elite search results and AI summaries without unnecessary complexity. Start simple, scale when needed.

Jeremy Andrews
Founder / CEO

Hank VanZile
Sr. Director Customer Experience

Instant keyword results enriched with AI query expansion, intelligent re-ranking, and conversational follow-up. No SaaS. No third-party infrastructure. No vendor bill.

tag1.com TAG1

Stop Overcomplicating AI Search. Start Delivering Better Results.

Tag1 layers AI-powered query expansion on top of fast keyword search without the vector database. Conversational follow-up turns every interaction into a content feedback loop.

Why Scolta works:

- **Instant results, progressive AI enhancement** – Users see results in 50ms, AI enriches in background
- **Clear AI summaries** – Synthesizes the top results into concise, source-linked answers
- **Conversational follow-up** – Every interaction signals content gaps and sales opportunities
- **Transparent, configurable ranking** – You control how results are ranked; no black box, no reindex required
- **Serverless cost model** – Zero traffic = zero cost, scales with usage
